

- ⋮ This lightweight puller sets up in minutes, operates at up to 60ft. per minute and will pull up to 1,000 pounds.
- ⋮ The Pull-It 1000 makes short work out of the most labor-intensive jobs, eliminating the need for long-hand pulls.

Maxis Pull-It 1000 Benefits

Faster

- ⋮ 2 minute set up time
- ⋮ Pulls up to 60ft per min

Easier

- ⋮ Light-weight (20 lbs)
- ⋮ One-Person setup and operate
- ⋮ No anchoring

Smarter

- ⋮ Use less manpower
- ⋮ Less expensive

“The Pull-It 1000 is easily maneuverable, quick, efficient and affordable. It will actually pay for itself in just a short period of time.”
Tilton Electric

“We had a service station project with 26 conduits going out to the tank hole, canopy, dispensers, parking lot lighting, and signs. The pulls were finished in less than 3 hours.”
Irvine Electric

“Very easy to use in small gutters pulling multiple #12 wire.”
Kearney Electric

“The Pull-It 1000 takes the headache out of hand-pulling, it took only one person to pull in 8 #14 wires 250 feet.”
Canyon State Electric
